9 Floripa competed in an E3 elimination heat last time and that was a bit too tough. Now the filly is stepping down in class and should have a good chance to pass the whole field during the final lap. **5 Listas Prosecco** kept up the pace well in the last race. She had been a scratch before that race and will be improved now. In the mix. **1 Diva Face** has a nice starting position. The mare opens fast and from the lead she has to be considered. **7 Aurora Wibb** has got two runs under his belt after a layoff and is getting closer to top form. She is possible but needs some racing luck.

3 Hell Of A Guy returned after a six-month break in the last race and did quite well. Goes for the front and will be difficult to pass from there. **9 Hall Of Fame S** has made two starts for the new trainer. Might prefer to run in the front, but has the capacity to win the race regardless. **10 Avatar W.F.** is consistent but still without a win after eight attempts. Will soon score a victory. **2 Summersethboy H.S.** is a quick starter and finds the lead - then the question is whether the five-year-old will be driven there.

3 Blyger S.R.P. showed fine form last time and if he is as good now he should have a nice chance from this starting position. **6 Northstream Cash** is a quick starter and will probably fly to the front and once there he could lead this all the way. **2 Good As Caviar** is a bit up and down, but if he is at his best he is good for this type of race. **7 Ronno** has not started for over a year and is now making an interesting comeback. Is good for this class and should be considered straight away.

1 Catch Lane galloped in the last race but is normally reliable. Now the starting position is perfect and from the lead she will be hard to beat. **2 Wonder Töll** has made several nice efforts towards the end and is in fine form. From this the starting position he will be in the fight for victory. **9 Divora** is in good shape and deserves a victory. **12 Wiener Blut** comes with two straight gallops. However, he has the capacity to be in the mix.
